

Amendments to the Abstract

Please amend the Abstract of the Disclosure as follows:

The present invention provides an ink jet printing apparatus that can inexpensively print desired colors without causing ink color mixture. In a print head, a plurality of nozzle rows for respective ink colors are arranged in parallel with one another. Arrangements and driving control are provided so that ~~few mists~~ little mist resulting from an ink ejecting operation ~~move so as not to reach~~ reaches the print head or ~~fall~~ condenses and drips.
